#### 2000 Update to Guidelines for Takings of Private Property

The following cases contain analysis of issues tangential to that of private property takings. Pursuant to K.S.A. 77-704 of the Private Property Protection Act, this summary of decisions constitutes the 2000 update to the Attorney General's guidelines. The original guidelines may be found in Volume 14, Number 51 of the Kansas Register, published on December 15, 1995. The 1996 Update may be found in Volume 16, Number 1 of the Kansas Register, published January 2, 1997. The 1997 Update may be found in Volume 16, Number 52 of the Kansas Register, published December 25, 1997. The 1998 Update is located in Volume 17, Number 53 of the Kansas Register, published December 31, 1998, and the 1999 Update is in Volume 18, Number 52 of the Kansas Register, published December 30, 1999.

On October 10, 2000, the United States Supreme Court granted certiorari in the case of *Palazzolo v. State of Rhode Island*, No. 98-333 [on appeal from 746 A.2d 707 (R.I. 2000)]. The issue in this case is whether a landowner's claim is ripe if he has not exhausted his state remedies. The plaintiff landowner sought permission from the state's Coastal Resources Management Council to utilize his land along the Atlantic seaboard in Westerly, Rhode Island. Upon denial of his request, he sued for compensation in a takings action. The Rhode Island Supreme Court affirmed the trial court's decision that compensation was not due because plaintiff's property was not taken for a public use. The court also determined that plaintiff's claim was not ripe, in part because he had not applied for approval of less intrusive development plans.

In re Condemnation of Land for State Highway Purposes [Carlson v. Westoff], 269 Kan. 128, 3 P.3d 1268 (2000).

The Kansas Supreme Court held that neither additur nor remittitur are appropriate in a partial takings condemnation case when the jury's verdict is outside the range of the evidence.

For general discussions of Constitutional takings in the context of land use and zoning, see *Sowell v. City of Coppell*, 2000 WL 968782 (N.D.Tex. July 12, 2000) and 83 Am. Jur. 2d *Zoning and Planning* § 43 (2000).

The Kansas Department of Health and Environment, Division of Health and Environmental Laboratories, Laboratory Improvement Program Office, will conduct a public hearing at 10 a.m. Wednesday, March 14, in Conference Room A, Building 740, Forbes Field, Topeka, to consider proposed amendments to the following Kansas administrative regulations: K.A.R. 28-15-35, 28-15-36, 28-15-36 and 28-15-37.

The time period between the publication of this notice and the scheduled hearing constitutes a 60-day public comment period for the purpose of receiving written public comments on the proposed regulatory action. All interested parties may submit written comments prior to the hearing to Stanley Sutton, Kansas Department of Health and Environment, Division of Health and Environmental Laboratories, Laboratory Improvement Program Office, Forbes Field, Building 740, Topeka, 66620-0001. All interested parties will be given a reasonable opportunity to present their views orally on the proposed regulatory action during the hearings, as well as to submit their written comments at that time. In order to give all parties an opportunity to present their views, it may be necessary to require each participant to limit any oral presentation to five minutes.

Any individual with a disability may request accommodation in order to participate in the public hearing and may request the proposed amendments and the economic impact statement in an accessible format. Request for accommodation should be made at least five working days in advance of the hearing by contacting Stanley Sutton at (785) 296-1640.

Copies of the proposed amendments and the economic impact statement may be obtained by contacting Stanley Sutton. The draft regulations are available on the KDHE's Internet home page at http://www.kdhe.state.ks.us/lipo/. The draft regulations also are available via e-mail in a Corel WordPerfect format. E-mail request should be sent to Stanley Sutton at ssutton@kdhe.state.ks.us. A sum-

mary of the proposed regulations and the economic impact statement follows.

K.A.R. 28-15-35. This regulation outlines the conditions for an environmental laboratory accreditation. The amendments to this regulation are designed to comply with the following:

(1) Federal regulations for laboratories conducting en-

vironmental testing;

(2) The National Environmental Laboratory Accreditation Conference (NELAC); and

(3) State requirements for laboratory certification when monitoring under the state's drinking water program, the wastewater program, and the Resource Conservation and Recovery Act (RCRA) programs.

K.A.R. 28-15-36. This regulation outlines the minimum requirements for approval of environmental laboratories. These requirements are listed in a manual, "Standards for Accreditation of Environmental Laboratories," November 2000, published by the department. The amendment to this regulation is designed to help assure the quality of analytical data submitted to the Kansas Department of Health and Environment, and data submitted by Kansas accredited laboratories to other state agencies/departments and federal agencies/departments (EPA/DOD).

**K.A.R.** 28-15-36a. This regulation outlines the minimum requirements for approval of field laboratories. The amendment to this regulation is designed to help assure the quality of analytical data submitted to the Kansas Department of Health and Environment and to municipal wastewater pretreatment programs.

K.A.R. 28-15-37. This regulation outlines the fee structure for laboratory accreditation. No changes were made to the fee structure for laboratories located within the state of Kansas. The amendments will only change the fee structure to a flat fee for laboratories located outside of the state that are requesting accreditation by reciprocity. The flat fee structure is designed to neither increase nor decrease fees but to reduce the number of invoices sent to out-of-state laboratories by the KDHE, ELIPO, and therefore expedite the turnaround time for accreditation by reciprocity.

The economic impact to the regulated community and the state is expected to be minimal. The laboratories will bear the cost of accreditation through payment of fees. No changes have been made to the fee structure for laboratories located within the state of Kansas. This fee structure has been in place since 1994. The fee structure is being amended to a flat fee for laboratories located outside of the state which are requesting accreditation by reciprocity. The amendments will not increase or decrease fees for out-of-state laboratories.

#### **Governmental Ethics Commission**

**Opinion No. 2000-54** 

Written December 21, 2000, to Joan S. Lewerenz, Topeka.

This opinion is in response to your letter of December 14, 2000, in which you request an opinion from the Kansas Governmental Ethics Commission concerning the state level conflict of interest laws (K.S.A. 46-215 et seq.). We note at the outset that the Commission's jurisdiction is limited to the application of K.S.A. 46-215 et seq., and whether some other statutory system, common law theory or agency rule or regulation applies to your inquiry is not covered by this opinion.

#### **Factual Statement**

We understand that you are asking for this opinion in your capacity as a former employee of the Kansas Department of Social and Rehabilitation Services (SRS). You have explained that in January of 1999, Maximus was awarded a sole source, contingency fee contract with SRS. You have explained that you did not participate in the making of this contract or its renewal. In December of 1999, however, you became responsible for the day to day oversight of the implementation of this contract. Pursuant to the terms of this contract, Maximus attempted to locate additional Federal funds for the State of Kansas by implementing certain programs. Because Maximus generated its fees on a contingency basis, by implementing these programs, it also generated larger fees for itself. Maximus required approval from you and/or your team to activate such programs. You have informed a member of our staff that the approval or disapproval of these programs did not require any type of amendments to the contract.

#### **Question**

May this state employee accept employment with Maximus?

#### **Opinion**

K.S.A. 1999 Supp. 46-233 is applicable to this scenario. It states in pertinent part:

(a)(2) Except as otherwise provided in this subsection, whenever any individual has participated as a state officer or employee in the making of any contract with any person or business, such individual shall not accept employment with such person or business as an employee, independent contractor or subcontractor until two years after performance of the contract is completed or until two years after the individual terminates employment as a state officer or employee, whichever is sooner. . . .

You have stated that you were not involved in the making of the original contract or its renewal. In addition, your supervision and oversight of the implementation of this contract does not rise to the level of participation in the making of a contract. See Commission Opinion 2000-50. Because you were not involved in the making of this contract, the restrictions listed in K.S.A. 1999 Supp. 46-233(a)(2), above, do not apply. Under the facts you have provided, you may accept employment with Maximus without violating the state level conflict of interest laws.

#### **Opinion No. 2000-55**

Written December 21, 2000, to Karl V. Milhon, Kansas Department of Health and Environment, Division of Health, Bureau of Epidemiology and Disease Prevention, Topeka.

This opinion is in response to your letter of December 8, 2000, in which you request an opinion from the Kansas Governmental Ethics Commission concerning the state level conflict of interest laws (K.S.A. 46-215 et seq.). We note at the outset that the Commission's jurisdiction is limited to the application of K.S.A. 46-215 et seq., and whether some other statutory system, common law theory or agency rule or regulation applies to your inquiry is not covered by this opinion.

#### **Factual Statement**

You have explained that you are employed by the Kansas Department of Health and Environment (KDHE) as the director of HIV/STD section of the Bureau of Epidemiology and Disease Prevention. You have explained that you have been offered a part-time consulting position with Ortho-Biotech, a pharmaceutical corporation. Your program does not contract with Ortho-Biotech and you have not been involved in any contracts with this company. In addition, you have informed us that you will not be performing the same type of work that you currently perform for the state and you will not be performing any work for this company within the state of Kansas.

#### Ouestion

Is it a conflict of interest for you to act as a part-time consultant for Ortho-Biotech in other states?

#### Opinion

Two statutes may apply to the question you have raised: K.S.A. 1999 Supp. 46-233(a), which involves participation in the making of contracts, and K.S.A. 1999 Supp. 46-235, which governs restrictions on compensation of state employees. Each of these sections will be addressed in turn.

K.S.A. 1999 Supp. 46-233(a) states in pertinent part:

- (a)(1) No state officer or employee shall in the capacity as such officer or employee be substantially involved in the preparation of or participate in the making of a contract with any person or business by which such officer or employee is employed. . . .
- (2) Except as otherwise provided in this subsection, whenever any individual has participated as a state officer or employee in the making of any contract with any person or business, such individual shall not accept employment with such person or business as an employee, independent contractor or subcontractor until two years after performance of the contract is completed or until two years after the individual terminates employment as a state officer or employee, whichever is sooner.

Because you have not participated in the making of any contract with Ortho-Biotech, subsection (a)(2) would not prohibit you from accepting employment with that company. Additionally, in the future under subsection (a)(1) of this provision, you will be prohibited in your official capacity as a state employee, from being substantially involved in the preparation of or from participating in the making of a contract with Ortho-Biotech.

(continued)

K.S.A. 46-235 states in pertinent part:

No state officer or employee shall accept compensation for performance of official duties, other than that to which such person is entitled for such performance. No person shall pay or offer to pay any state officer or employee any compensation for performance of official duties, except a state officer or employee performing official duties in making payments to state officers and employees . . . The receipt of wages or salary from an individual's non-state employer during a period of service as a state officer or employee shall not be construed as compensation for performance of official duties.

Because neither you nor your agency provide this type of service to other states, K.S.A. 46-235 would not prohibit

you from accepting compensation for this work. See also Commission Opinion 1999-01.

In conclusion, so long as you, in your official position as a state employee, do not participate in the making of a contract with Ortho-Biotech, and so long as it is not a part of your official state duties to provide this type of services to other states, you may act as a consultant for Ortho-Biotech in other states.
